

ALABAMA MEDICAID AGENCY PREFERRED DRUG LIST

As a result of legislation passed by the Alabama State Legislature in June 2003, the Alabama Medicaid Agency implemented a mandatory Preferred Drug List, effective October 1, 2003. Brand preferred drugs, generics (some exceptions apply) and over-the-counter (OTC) drugs covered by Medicaid are available without prior approval. If a non-preferred drug is ordered, the practitioner will need to obtain prior authorization (PA). If approval is given to dispense the non-preferred drug, an authorization number will be provided. Antipsychotic and HIV/AIDS drugs are exempt from this requirement.

Below is an alphabetical listing of brand preferred products on the PDL. The drug name denotes all dosage forms and strengths unless noted. An asterisk (*) denotes a generic is available in at least one dosage form or strength. All covered OTC drugs and generic products (unless otherwise specified) are considered preferred. For a more complete list including non-preferred brands and more information concerning the PDL, please visit our website at www.medicaid.alabama.gov.

Actos*	Diastat Acudial*	Pradaxa
